ON TO MOHAVE.

The Extension of the Carson & Colo rado a Fixed Fact.

The Enterprise says:

The extension of the Carson & Coloado railroad from its present southern terminus at Keeler, in Inyo county, near the south end of Owens Lake has been decided upon. It will be pushed through to a connection with the Southern Cali-fornia system of railroads at Mohave as speedily as possible. A party of surveyors will soon be placed in the field to locate the line from Keeler to Mohave. Those who have been over the country through which the extension will pass say there are no very difficult points on the route. There are long reaches of level valley and deserts where there will be but little work for the graders. The heavy work will be in cutting through the small dividing ridges in the chain of valleys through which the road will be constructed.

The work of extending the Carson & Colorado will give renewed life and ac-tivity to the towns and to all the Owens Valley country. And the completion of the road will bring into Inyo county many settlers from Southern California. Indeed, as soon as it is known that the extension of the road is a thing that may be now set down as a fixed fact, there will no doubt be quite a rush for the fine lands still to be had at several points in that region of large and beautiful valleys.

DOCKSTADER'S MINSTRELS. - To-morrow evening this Minstrel Company will appear at McKissick's Opera House to as large an audience as the little theater dustries, and under that system the peo-lus hold since it was onesed. Of this has held since it was opened. Of this company the Sacramento Record-Union A full house greeted Dockstader's

Mn strels last night, and the audience was a thoroughly well-pleased one. There has not appeared here a troups of main a mystery.

Doing Nevall.—F. B. Logan, corresponding agent for Daway & Co., of San Francisco, and this office a fraternal visit justerday. Mr. Logan is here writing up the resources and attractions of Relic and vicinity, and convassing for the many papers published by the above firm, among which are the "The illustrate of line most reliable kind of Racific States," "Raral Press," and the Common Racific States, "Raral Press," and the Common Racific States, "Raral Press," and the Common Racific Racific States, "Raral Press," and the Common Racific R motern mustrelsy mater in all the de-tails of its performance than Dockof end-men. Dixon, Jose and Divis have tenor voices of varying, but rate qualities. Of the three, Davis probably has the most wearing, the best conditioned and most sympathetic tones, while Dixon, with his high register and netic method. Frillman is well known bere and has always been a favorite, and is a bas-to of strong qualities. Dockstader won instant success, proving to be a wit and an eccentric low comedian of the minstrel order of the best class. He is strikingly original, there being not the slightest evidence of his having San Francisco roughs to do our voting for us, was received with the loudest applause and longest continued of the Jones, Manning and Davis, was a nev elty and a charming piece of graceful posing. > THE COMSTOCK ILLUSTRATED. - The Enterprise, of Sunday, says:

A private exhibition was given last been engaged for some months. All the views of the town, mining works and machinery were photographed and were who present were John W. Mackay, Superintendents Lyman, Kenting, Boyle and many other leading mining. men. All were well pleased with the beauty and correctness of the views presented, both underground and on the surface. All is explained in a lecture as the views are shown. The intention of the whole is to make the Comstock better known in other regions than it at present is to the many. The boys will probably give an exhibition hote before leaving for other lands.

THE VACANT MARSHALSHIP. -The Entermise says there are about a score of annel dates on the Comstock for the office of United States Marshal, left vacant by the death of Thomas E Kelly. with messages to Senstors and Representatives of other States who are supposed to have influence with the President. The most industrious workers

ANTIOUS FOR a GAME. - The Esmeralda News says the Esmeraldas are very anxons to make a game with the Amateurs, of Oarson. After the game had been played in Hawthorne, on the Fourth, a gentleman offered to put up a forfeit of \$200 on behalf of the Esmeraldas for a game with the Amateurs for any sum, but the latter club was not everly keen Is served every day from 11 A. M. to 2 P. M. to make a game. The Esmeraldas are considerably disorganized, but have plenty of saud and coin.

The registry books are open, and Judge Young is ready to put you on record as a citizen.

THE CAMPAIGN.

For the first time since 1876 the Deraocrats are set square on the record in favor of free trade. The Republicans have advocated protection to domestic industry ever since the close of the war. In the South, at the last election, Democratic orators claimed that they were in favor of free trade, while Randali and others in the North, urged that the party favored protective duties. Equiv-Democracy must meet the issue, hence it will be decided whether our markets are to be thrown open to the world to compete with us on even terms. We have bad experiences enough in Cali-fornia with the Chinese to realize that if our markets were open to every country under heaven, labor and property of every description would dealine in

value.

President Cleveland is blamed for precipitating the free trade controversy on the country. It is said that his policy should have been to approve a platform which dodged the tariff issue. However this may be, it is obviously best that the people should have an opportunity of expressing their opinion on the most important question of the day in a clear and unequivocal manner.

It has been said that the American people are not familiar with the question of protection to home industries. It is possible that there is something in this, but every person ought to realize that there is no country in the world where the people are so prosperous as in the United States, and that this prosperity has been brought about by pro-testion. The War of the Rebellion forced upon us protection to home into the war our manufactures were small in comparison to what they are now, and the wages of labor were light. Cieveland came into power, but no sooner was he fairly in office than he entered into a league with Southern politicians to break down Northern in-dustries. -S. F. Call.

An Explanation.

What is this 'nervous trouble' with which so many seem now to be afflicted? If you will remember a few years ago the word malaria was comparatively unknown, --to-day it is as common as any word in the English language, yet this word covers only the meaning of another word used by our forefathers in times past. So it is with nervous diseases, as they and malaria are intended to cover what our grandfathers called billiousness, and all are caused by troubles that arise from a diseased condition of the liver which, in performing its functions, finding it cannot dispose of the bile through the ordinary channel is compelled to pass it off through the system, causing nervous troubles, Malaria, Billious Fever, etc. You who are suffering can well appreciate a cure. We recommend Green's August Flower. Its cures are marvelous.

Advice to morbers.

Are you disturbed at night and broken and crying with pain of cutting teeth? If so, send at once and get a bottle of Mrs Winslow's So thing Syrup for Ohildren Teething. Its value is incalou able. It will relieve the poor nittle sufferer immediately. Depend upon it. mothers, there is no mistake about it. it cures dysentery and diarrhosa, reg-ulates the stomach and bowels, ones wind colic, softens the gams, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winelow's soothing Syrup for Children Feething is pleasunt to the taste, and is the prescription of one of the oldest and heat female purses and physicians in the United States, and is for sale by all druggists throughout the world. I suffered with eatarrh for many years and got so deaf and Theatre giving that I went about my Museums, Circus and Theatre giving directions and doing business with a big ear-trumpet at the side of my head. It was very annoying to me and amusing to those who saw me. By the advice of physicians I sought the climate of the Sunny South. In six months I could see no change and was discouraged. At this time I began using Chalmer's English Cafarrh Cure. In three months I felt a new man, in six months my hearing returned. I refused to give a testimonial at once for the English Catarrh Cure, as I feared it was not permanent. But a year and more has now passed, and I can now heartily indorse Chalmer's English Catarrh Cure for the cure of catarrh and deafness. EUGENE ROBINSON,

PLATFORM AND SOLUTIONS.

The Republicans of the State of Nevada in convention assembled again express their loy-alty to the principles of the Republican party, which have made the country so great and pros-perous during the last quarter of a century.

ally to the principles of the Republican party, which have made the country so great and prosperous during the last querter of a century.

Resolved. That the question of a sufficient supply of a circulating medium to maintain a perunanent range of the price of labor and property is the most important political question awaiting solution by the American people. Revolved. That a diminishing quantity of money reduces the price of labor and property increases the obligation of contract, enriches the creditor, impoverishes the debtor, and paralyzes industry and enterprise.

Resolved. That the present financial system of the United States, which increases or diminishes the circulating medium at the pleasure of the manipulators of the National banks, without regard to the increase of population or the wants of the people, and which recognizes gold alone as the standard of value, and places in the hands of the Treasury Department all the revenue of the Government to speculate within bonds and loan to National banks without interest, is subversive of the rights of the people oppressive, unjust, and should be repudiated.

Resolved. That a financial policy whereby both gold and silver shall form the basis of circulation, whether the money used by the people be com, or in cortificates redeemable in coin, or both, as convenience may require, is imperatively demanded.

Resolved. That the attempt to substitute National bank notes, costing the Government in blains of dollars annually, for five silver, costing nothing, is an outrage upon the people; that the money ring or trust, which has suarped the sovereign power of the Government to issue money, and which has finandial that this ring or trust be destroyed and equal rights restored to all people.

Resolved. That we charge that Precident Cheveland is the willing tool or agent of a powerful money ring which fattons the subsidies of the Government and law. We demand that this ring or trust be destroyed and equal rights restored to all people.

Resolved. That we charge that Prec

Resolved. That we favor the nomination of no man for President who is personally interested in National banks or the bonned indottedness of the United States, but we demand a candidate who is tree to do justice to all the people of the country—the poor as well as the rich.

Resolved. That the trickery of the President and his advisers by which they prevented a vote in the tionse of Representatives on the Beck silver amendment to the Fon i purchasing bill, equals the villainy of the secret and fraudulent demonstration of silver in 1573.

Resolved. That we are in favor of the protection of home industry, and that the laborers of this country have a right to all the work required to supply the people of the United States, and that we are in favor of high wages in this country, and to that end will protect the wageworkers competition with the cheap labor of other lands. Resolved. That the policy of the Government should be inaugurated and established by the people through their representatives in both Homes of Congress, and not by the President or the money trust, of which he, either as agent or head, is most active in defending. 11

Resolved, That we charge President Oleveland with violating every promise but made in fayor of civil service reform, with crippling the mail services, with rofusing to sign necessary bills for the improvement of rivers and harbors, with using the power of his Administration to prevent appropriations for a navy and coast defenses, with tempting to destroy the protective tariff, with courting the good will of other nations at the expense of the citizens of the United states, and with joining the foreign bondholders to demonstize silver and destroy the industries of our country, and for the reduction of wages of the Mintemployes at Carren for closing the Carson Mint whom it was not only self sustaining but a source of revenue to the Government, for its contemptions veto of pension bills for the relief of disabled soldiers and sailors, and for failing to construct the Government building at Carson as required.

IV III

We are in favor of the absolute exclusion of Chinese, and the restriction of minigration, by which the present overcharged condition of the labor market is made worse, and also favor legislation by which a revision of our naturalization and lacd laws may be accomplished.

We demand, in behalf of our various industries the retention of the dubies on fead, borax soda, hides and leather, and to restore the tariff of 1807 on wool.

Resolved, That we recognize the right o labor to organize for its lawfu, prediction.

VII fleroised. That we favor the submission by the Legislature to the people of an amendment to the Constitution giving the Legislature the power to regulate the liquor traffic.

AIII We favor liberal appropriations by Congress for hydrographical and topographical surveys in this State to the end that the wasts waters may be preserved for the purpose at trigation.

1X Wo indorse the wise and conservative administration of Governor C. O. Structures, and we hearfly commend the able effects of Senators Stewart and Jones and Representative Woodburn in behalf of the interests of the people of this State.

We favor the granting to Novide of all Government land within the State for the purpose of providing means for irriation and other improvements.

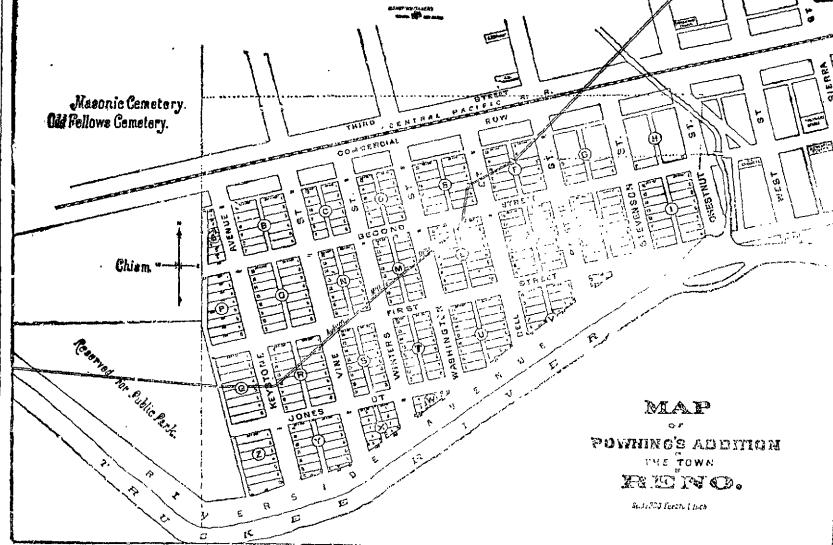

We favor the reduction of the Treasury surplus by the payment of pensions to Union soldiers, their widows and orphars, the improvement of rivers and harbors, the building of delenses for our sea-coasts, the erection of public buildings, the creation of a may, the p rehase of bunds and he repeal of the internal revenue laws faxing tobacco.

It is the duty of the State to maintain free non-sectarian schools in the rural and sparsely settled districts as well as in towns and thickly settled sections, and that such a division of the school money should be made as will furnish to means of education to all children in the State.

XIII

We are in favor of re-opening the Carson Mint for co nage, and raising the wagos of its employes to the stendard paid by the last Republican Administration.

We demand the restaration of the mail service in this "tate to the efficiency maintained by the last Republican Administration, and favor the payment of fair wages to all postal employes.

THE MOST LOVELY PORTION OF

Facing the Truckee—The Aristocratic Riverside Avenue Driveway—Splendid Sewerage—Healthy Location and Safe From Fire.

The proprietor is now ready to receive proposals for lots in Powning's Addition. The map gives a good idea of the Tract, which is situated between the Central Pacific Railroad and the Truckee River, and commences on the west at a point three blocks distant from Virginia Street, making it the most central and convenient of any portion of the rapidly growing town of Reno. Unlike any other part of the town this Addition faces the beautiful Truckee River and Riverside Avenue is certain to become the fashionable driveway of the country. The streets are 80 feet wide, while Riverside and Keystone Avenues are intended to be 100 feet in width. All alleys are 20 feet wide. The soil is a rich gravelly loam, and susceptible of the highest state of cultivation. Being situated as it is it is more safe from fire than any other section. The regular lots are 50x140 feet. The sewerage is perfect.

Before Buying Elsewhere Parties will do Well to Look at These Lots.
